

UNC Greensboro Millennial Campus District Planning

October 18, 2018

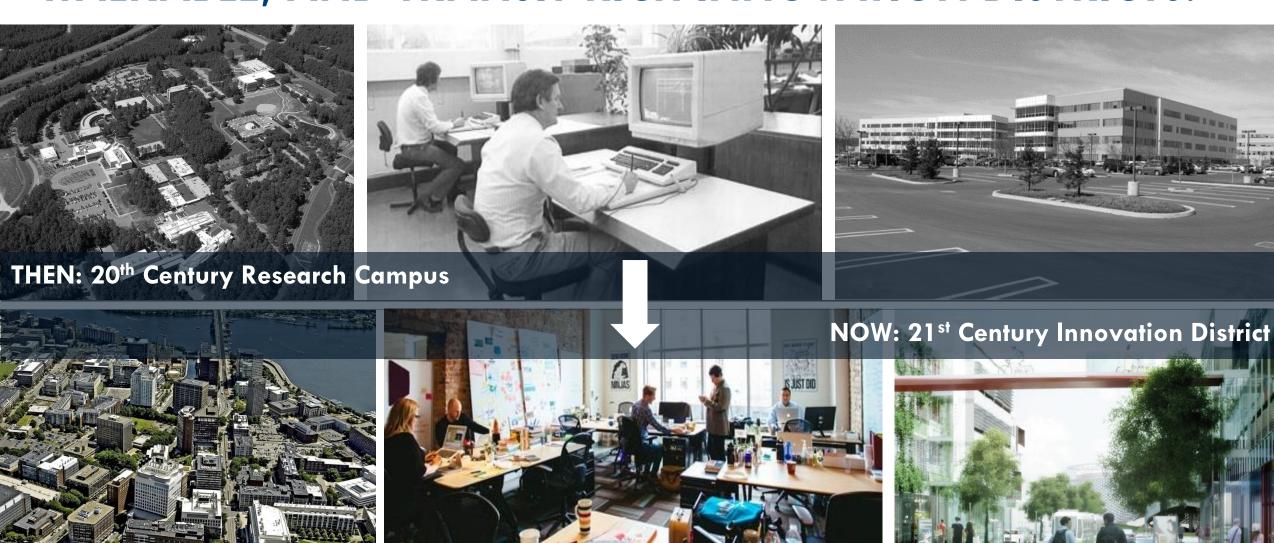

AGENDA

- 1 Opening Remarks from Chancellor Gilliam
- 2 Overview of Innovation Districts
- 3 Significance of the Millennial Campus Designation
- 4 UNCG's Vision for the Millennial Campus

5 Table Discussions

R&D IS NOW INCREASINGLY OCCURRING IN MIXED-USE, WALKABLE, AND TRANSIT-RICH INNOVATION DISTRICTS.

CONVERGENCE OF PEOPLE, PLACE, & PROGRAMS

THERE ARE FOUR KEY CHARACTERISTICS OF SUCCESSFUL INNOVATION DISTRICTS.

The creation of a Millennial Campus is an exciting opportunity for UNCG to:

Grow its research capacity

Forge new partnerships with private partners

Build a dynamic innovation ecosystem

Strengthen connections between campus and community

"The UNC Greensboro Millennial Campus initiative will fuel strategic partnerships and community collaborations to create unique, meaningful academic experiences for our students; inspire new research and creative endeavors; and drive innovation, economic growth, and cultural enrichment, transforming our University and our region."

UNCG Millennial Campus Districts

Two districts on our campus, but integrated into the fabric of our community. Areas where we can partner with the private sector to create new academic experiences, fuel economic development for our region, and create jobs.

Health & Wellness

(Primarily along Gate City Blvd.)

Leveraging existing resources like the Kaplan Center to create an ecosystem of services and research activities designed to help foster healthy living.

Visual & Performing Arts

(Along Tate St.)

Building from the core of UNCG Auditorium, the Weatherspoon, Taylor Theatre and our **unique local** area businesses.

Overview of Millennial Campus Planning Process:

VISIONING

COMPETITVENESS ASSESSMENT

PROGRAMMMING ANALYSIS

BUSINESS PLAN DEVELOPMENT

- Understand University goals
- Engage with stakeholders
- Develop guiding vision

- Benchmark best practices in successful innovation districts
- Analyze research strengths and alignment with industrial opportunities
- Continue stakeholder engagement

- Conduct real estate market analysis
- Connect with community and host a public meeting
- Develop program concepts and strategies for activation

- Establish a governance model
- Identify funding strategies
- Develop metrics for tracking progress
